WHEREAS refineries in Albany have expanded to accommodate an even greater volume of these and other potentially dangerous products; and

WHEREAS New York Governor Andrew Cuomo passed Executive Order #125 directing New York State agencies to conduct a comprehensive review of crude rail transport safety procedures and emergency response preparedness and Albany County issued a moratorium on crude increases at the Port of Albany, pending a public health investigation; and

WHEREAS there has been a dramatic increase in rail crude transport in the City of Plattsburgh and along the Adirondack Coast, and more crude oil was spilled in U.S. rail accidents in 2013 than the preceding four decades, amounting to more than 1.15 million gallons in 2013 in addition to the July 2013 incident where 72 tanker cars loaded with 2 million gallons of flammable crude oil derailed in Lac-Megantic, Canada, causing explosions that killed 47 people, destroyed dozens of buildings, and caused over \$1 billion in damages; and

WHEREAS, the National Transportation Safety Board and the Pipeline and Hazardous Materials Safety Administration have made recommendations to avoid urban areas when transporting crude and

to improve rail safety regulations for crude oil transport, including worse-case scenario emergency response plans; and

WHEREAS, extensive train loads of this material routinely travel through the City of Plattsburgh, a densely populated area, in our region; and
